

**CONSULTECH**™

**TOTAL SURFACE COATING SOLUTIONS**

# **FINISHING SOLUTIONS**

Industrial Finishing Equipment

**High Productivity, Better Finish Quality, Faster Job Completion**

Authorised Distributors

PROVEN QUALITY. LEADING TECHNOLOGY.

# FEATURES & Benefits

## TRITON- 308 HP/ TRITON- 1030 HP

High pressure diaphragm pump.  
Less material wear.  
Compact design.  
Diaphragm pump design'  
High flow capability.

Feed pump for circulating systems.  
For shear sensitive materials  
Easy to integrate.  
Less service, less downtime.  
Feed multiple guns.

## FALCON™

Stainless steel construction  
2-way seal.  
High flow piston valve.  
New inlet valve design.  
Easy to service pump.

Handles wide range of fluids.  
Longer life packing.  
Handles wide range of material viscosities.  
Easy to flush.  
Quick material change.

## MERKUR™

All stainless steel pump construction.  
  
Low pulsation output high flow rate delivery.  
Low sound level air motor operation.  
Enclosed throat seal and rod.  
Self-adjusting pump packing.

Handles a wide range of materials  
Including waterborne .  
Consistent finishing quality,  
multiple gun capabilities.  
Improves working condition.  
Dust and dirt protection.  
Less service downtime.

## Xtreme® Airless Sprayers

Tested to outperform and outlast all other sprayers in the market.  
Designed to withstand the harshest environmental conditions.  
Easily handles the toughest protective coatings and corrosion control applications.

Provides material tracking, system diagnostics and runaway control.  
More configurations means you get the right tool for any airless spraying job.

## PRO XS ELECTROSTATIC - Manual & Auto

Light weight gun with excellent spraying control.  
Cable less electrostatic / no control panel  
Full range of electrostatic spraying capabilities.

Air-powered gun for easy installation and service.  
Up to 55% higher transfer efficiency than conventional guns.  
Waterborne available.

## INFORMER In- Line fluid monitoring package

The easy, affordable way to measure fluids, reduce waste and improving the finishing process.  
Informer is a great tool for reducing paint waste, collecting data and improving the finishing process.

**Features key application:** Easily collects EPA data manual spray finishing  
Reduce paint wastage automatic spray finishing  
**Key industries:** -Truck & bus -Automotive -Auto feeder  
-Aerospace -Wood -Farm & construction

# FEATURES & Benefits

## PROMIX™ EASY - Two Component Spray Solution

Designed for most materials including moisture sensitive ISO.  
Circulation system keeps solids in suspension.  
Advanced reporting system monitors production.

Intrinsically-safe controller allows for easy integration into hazardous environments.  
Proven patented mixing technology.  
Handles flow rates as low as 20 cc/min and ratios up to 30:1.

## AirPro™ - Air Spray Guns

Ideal for wood, general metal, waterborne, adhesive, automotive and high wear applications.  
Cutting edge aircap and nozzle design optimize spray performance.  
Wide range of gun models to meet the needs of your specific application.

Lightweight design, low trigger force and ergonomic handle provide maximum operator comfort.  
Fewer parts means less maintenance and downtime.  
Improved transfer efficiency through reduced air consumption.

## Wider Applications Industrywise

### WOOD Finishing

**TYPICAL APPLICATIONS**  
Furniture, Kitchen cabinets  
Windows and doors, Wood office furniture,  
Custom woodworking  
**MATERIALS**  
Top Coats, Sealers, Wash coats, Stains  
Lacquers, Polyurethanes Waterborne and Solventborne

### METAL Finishing

**TYPICAL APPLICATIONS**  
Farm implements, Construction vehicles,  
Aerospace, Automotive, Office furniture,  
Trucks, trailers, Bus, coach  
**MATERIALS**  
Primers, Top coats, Clear coats, Enamels,  
Urethanes, Epoxies, Alkyds

### PLASTIC Finishing

**TYPICAL APPLICATIONS**  
Automotive, Automotive components,  
Recreational vehicles, Electronics,  
Cell phones  
**MATERIALS**  
Adhesion promoters, Primers, Top coats,  
Clear coats, 1, 2 and 3 components,  
Urethanes, Waterborne and Solventborne

## Process Pumps

## Accessories

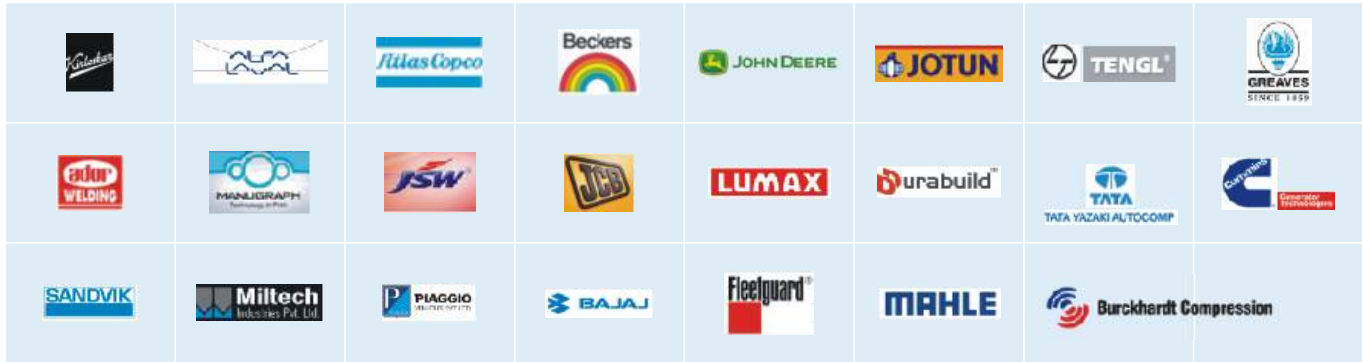

# Finishing Solutions

## We Undertake Turnkey Projects in Following Areas.

- Industrial Paint Finishing Systems
- Powder Coating Plants & Paint Application System
- Metal Pretreatment Systems
- Cathodic Electro Deposition (CED)
- Material Handling Systems (Conveyors)
- Spray Booth for Trucks, Large Equipments & Service Stations

## Esteemed clientele

Kirloskar, Alfa Laval, Atlas Copco, Beckers, John Deere, Jotun, L&T Tengl, Greaves, Ador, manigraph, JSW, JCB, Lumax, Durabuild, Tata Yazaki, Cummins, Sandvik, Miltech, Piaggio, Bajaj, Fleetguard, Mahale, Burckhardt Compression are registered trade marks of their respective owners

## Projects

## About Consultech

We, **Consultech Engineers Pvt. Ltd.** are the leading designers and manufacturers in the field of Surface Coating Plants and Equipments. We offer Total Solution in the Field of Surface Coatings, that starts from consultancy, designing, engineering and commissioning of tailor-made systems for powder coating, liquid paint coating and Metal pretreatment, on turnkey basis, for all types of application requirements of finish coating for industrial and consumer goods.

The Company has established in the market since 1997. Our Best Quality Systems, Excellent Service Back-up, the unmatched superior workmanship and user friendly design is a speciality. We are authorised distributors of GRACO INC , USA for their complete range of finishing equipments & systems.
